

#### **Technical data**

20 kN Crimp Force | Pneumatic | Air pressure 6 bar | 87 PSI

#### Process-safe

Due to forced sequence control and with linear crimping movemennt, ideal for use in automotive and industrial applications

## **Application range**

Uninsulated contacts up to 16 mm<sup>2</sup> | Insulated terminals up to 10 mm<sup>2</sup> | Wire end ferrules up to 50 mm<sup>2</sup> | Automotive connectors up to 10 mm<sup>2</sup>

UP 35 BA with contact hold function, no hands in the working area due to additional lever (mountable for left and righthanded users), ideal for miniatur plugs < 0,14 mm<sup>2</sup>

# **High-quality**

SSC with safety function - working without finger protection, operate contact hold function with double foot pedal, no hands in the working area

## **Flexible**

React to different production orders with tool-free guickchange adapter system

# **Portable**

25 kg weight, space saving design and portable to any place and immediately ready for use

#### Reliable

The production quantity is recorded by the electronic piece counter

### Individual

Different adapters allow almost unlimited variability for individual customer solutions, use of external dies possible

A selection of standard processing solutions with and without positioning system available from stock

### **User-friendly**

Safety or two-hand operation optionally available

# Customized

Customized versions in design and function are available on request

# Reliable

Quality Made in Germany and CE compliant

# **Pneumatic Crimping Machine UP 35**

Linear working mechanism (standard version).

# Pneumatic Crimping Machine UP 35 | BA

Linear working mechanism. With integrated contact holding system operated manually by hand lever.

# **Pneumatic Crimping Machine SSC**

Linear working mechanism. Can be operated without finger guard and with double foot pedal.
